 5. Email Alerts
 6. Linking Email Alerts with Automation
 7. Approval Processes & Notifications
 8. Summary
-

1. Overview

In this phase, Salesforce automation was configured to streamline order follow-ups and notifications.

- **Tasks** are automatically created when new orders are entered.
 - **Email templates and alerts** ensure consistent communication.
 - The automation reduces manual intervention and ensures timely action by Sales Managers.
-

2. Components Implemented

Component Type	Salesforce Name / API Name	Purpose
Record-Triggered Flow	Order Follow-up Task Automation	Creates follow-up tasks for Sales Managers when orders are created
Email Template	Order_Followup_Notification_Template	Standardized follow-up email for distributors
Email Alert	Order Follow-up Email Alert	Sends automated follow-up emails
Custom Notification		Future enhancement

3. Record-Triggered Flow — "Order Follow-up Task Automation"

Objective: Create a Task automatically whenever an Order is created.

Implementation Steps

1. Setup → **Flows** → **New Flow**.
2. Select **Record-Triggered Flow** → **Create**.
3. Configure Trigger:
 - Object: **Order**
 - Trigger: **When record is created**
 - Condition: `Status = New`
 - Optimize for: **Actions and Related Records**

4. Add **Create Records** Element → Task
 - Subject: "Order Follow-up: {!\$Record.OrderNumber}"
 - Status: Not Started
 - Priority: High
 - WhatId: {!\$Record.Id}
 - OwnerId: {!\$Record.OwnerId}
 - ActivityDate: `TODAY() + 2`

Select Elements

Record-Triggered Flow Start

Object: Order Edit

Trigger: A record is created or updated

Conditions: 1

Optimize for: Actions and Related Records

+ Add Scheduled Paths (Optional)

Open Flow Trigger Explorer for Order

Run Immediately

Create Follow-up Task Create Records

End

Configure Start

Select Object

Select the object whose records trigger the flow when they're created, updated, or deleted.

* Object

Order

Configure Trigger

Trigger the Flow When:

☐ A record is created

☐ A record is updated

☒ A record is created or updated

☐ A record is deleted

Set Entry Conditions

Specify entry conditions to reduce the number of records that trigger the flow and the number of times the flow is executed. Minimizing unnecessary flow executions helps to conserve your org's resources.

If you create a flow that's triggered when a record is updated, we recommend first defining entry conditions. Then select the **Only when a record is updated to meet the condition requirements** option for When to Run the Flow for Updated Records.

4. Email Templates

Template Name: Order_Followup_Notification_Template

Type: Lightning Email Template

Subject Line:

Follow-up Required for Order {!OrderNumber}

Body Content:

Dear {!Recipient.FirstName},

A new order ({!Order.OrderNumber}) has been created by distributor
{!Order.Account}.

Please follow up within 2 days to ensure timely processing.

Regards,
Sales Operations Team

Steps

1. Setup → **Email Templates** → **New Template**.
2. Choose **Lightning Email Template**.
3. Provide Name and Subject.
4. Add merge fields for Order Number and Distributor Name.
5. Save & Activate.

The screenshot shows the Salesforce Setup interface for Classic Email Templates. The left sidebar contains a search bar with 'email templates' and a navigation menu with 'Email' expanded, showing 'Classic Email Templates' and 'Lightning Email Templates'. The main content area is titled 'Classic Email Templates' and shows details for a template named 'Order Creation Notification'. The details include fields for Email Template Name, Template Unique Name, Encoding, Author, Description, Created By, Available For Use, Last Used Date, and Times Used. Below the details is a section for the email template content, including a subject line and a plain text preview.

Email Template Detail	
Email Templates from Salesforce	Unfiled Public Classic Email Templates
Email Template Name	Order Creation Notification
Template Unique Name	Order_Creation_Notification
Encoding	Unicode (UTF-8)
Author	Tarun Dwarakacharya (Change)
Description	
Created By	Tarun Dwarakacharya, 9/14/2025, 4:06 AM
Available For Use	✓
Last Used Date	
Times Used	
Modified By	Tarun Dwarakacharya, 9/14/2025, 4:12 AM

Email Template

Subject: notification about order

Plain Text Preview: hi how are you.

The screenshot shows the 'Classic Email Templates' page in Salesforce. The header includes a 'SETUP' icon and the title 'Classic Email Templates'. Below the header, the page is titled 'Text Email Template' and 'Order Approval Request'. A sub-header says 'Preview your email template below.'.

The main section is 'Email Template Detail', which contains a table of template information. The table has columns for 'Email Templates from Salesforce', 'Unfiled Public Classic Email Templates', 'Email Template Name', 'Template Unique Name', 'Encoding', 'Author', 'Description', 'Created By', 'Available For Use', 'Last Used Date', and 'Times Used'. The data row shows: 'Order Approval Request', 'Order_Approval_Request', 'Unicode (UTF-8)', 'Tanun Dwarakacharla [Change]', 'Notification to approver about new order approval request.', 'Tanun Dwarakacharla 9/20/2025, 10:08 PM', 'Available For Use' (checkbox), and 'Modified By Tanun Dwarakacharla 9/20/2025, 10:08 PM'.

Below the table is a 'Send Test and Verify Merge Fields' button. Underneath, there is a 'Subject' field with the text 'Order #({Order.Order_Number__c}) Requires Your Approval'. Below the subject is a 'Plain Text Preview' section showing the text 'Hi approval request'.

5. Email Alerts

Email Alert Name: Order Follow-up Email Alert

Object: Order

Template: Order_Followup_Notification_Template

Recipients: Sales Manager Role

Steps

1. Setup → **Email Alerts** → **New**.
2. Enter Name: **Order Follow-up Email Alert**.
3. Select Object: **Order**.
4. Choose Template: **Order_Followup_Notification_Template**.
5. Select Recipient: **Role = Sales Manager**.
6. Save.
